- Content-driven page templates
- Tailored animations and interactions
- Multi-language support (optional)
- SEO structure and optimisation
- Domain name and hosting for 2 years

from 2000.-

Websites are designed and built on Wix, chosen for its flexibility, reliability, and intuitive content management — allowing clients to remain autonomous once the site is delivered. Each project is fully customised and designed beyond standard templates.

Additional Information

- Website content (texts and images) must be provided in final form prior to design and integration
- All prices include up to three rounds of revisions (up to 1.5 hours per round)
- Any additional revisions or calls will be billed at CHF 22.50 per 15-minute increment, only if required
- Prices listed are indicative and based on standard project conditions. Final pricing is subject to a personalised and detailed quotation, reflecting the exact scope, complexity, timeline, and specific requirements of each project.
